

Dear Parents,

The children and teacher would like to collect items for our class art area and process oriented art projects. Would you help us collect?

When you are looking in drawers, you might find some things that we could use for projects. When you are putting out your “recycle stuff” or are outside walking, you might find some small things? We want to collect. Please help us find things like broken jewelry, ribbons, feather, plastic things and paper things. Many things could do! The list that we are sending home has more ideas.

Thanks for the help,

Children and Teacher
